S12.ASC Smart Light

Solar Powered, 12 inch Warning Light

Programmable Calendar and 5 year batteries.

C&C Signal's Solar Powered 12 inch Warning Light offers the low cost of wireless placement, a programmable calendar and up to 5 years of service from one set of internal batteries. Our advanced solid-state circuitry eliminates flashers and is designed from the ground up as a true solar-mated system. Dual light units and remote control are available.

Benefits

Industry Standard 12 inch size

No trenching, cabling or specialized work crews, and can be placed in virtually any location.

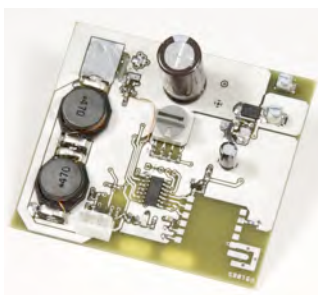

Operate maintenance free for up to 5 years

Self-powered and immune to electrical grid failures, plus no electrical bills

Light weight integrated batteries allows one-man installation

Made in the USA.

At right: solid-state circuitry, with no flashers to fail.

3-Way Operation: Steady On, Flashing or Off with Programmable Calendar

Advanced Circuitry, Case, Lens and LED

Length of Operation: over 5 years

Battery: LiFeP04

Case Color: Black

Lens Color: Amber, Red, Green

Pole mount

Features

Compatible with Safe Routes to School (SRTS) funding models.

Includes Microsoft® Windows® based calendar Set-up program at no additional charge

Includes USB programming cable.

Can be preprogrammed for up to 2 years of operation based on individual calendars

Internal clock works with daylight sensor to prevent small clock errors from affecting the calendar over time.

Part Number: S12.ASCX

X: denotes lens color
